intermediates have gone up during the last two financial years; and

(b) if so, what are the reasons therefor and what remedial measures Government are contemplating to arrest this trend ?

THE MINISTER OF STATE IN THE DEPARTMENT OF CHEMICALS AND PETROCHEMICALS IN THE MINISTRY OF INDUSTRY (SHRI R. K. JAI-CHANDRA SINGH): T, a) Yes, Si$_r$. Total imports of bulk drugs and intermediates during the last two financial years are as follows:

	(Rs. in Crores in terms of c. in)
1984-85	204. 43
1985-86	250. 03

(b) The import of various bulk drugs and intermediates is regulated under the provisions of import and Export Policy. The imports are allowed only in those where indigenous production is not and: cost. effective domestic pro- duction have not. been established or th e s only single' producer a^{n}d same is not to meet the demand. Import Policy ig i time to time to incorporate changes. While the heed to pro-isly as many bulk drugs and intermediates is obvious, it is to be accepted that no country can be self-sufficient in all drugs $_a$nd intermediates. Imports are necessary to substitute domestic production.

It is the endeavour of Government to encourage domestic production of all the bulk drugs and' intermediates to restrict imports and to achieve self-sufficiency. Following steps have been taken to augment indigenous production:

(i) A number of, bulk drugs have been identified where the manufacturers are allowed minimum economic capacity for setting up their projects.

(K) In May/June, 1985, 94 bulk and intermedattes were delicensed for *pto-$_f$* duction in the country.

(Hi) Registration with the DGTD are freely allowed to companies other than' FERA find MRTP companies.

(iv) Import of technology involving lump-sum payment, royalty payment and foreign collaboration $_a$re allowed depending upon merits in the field of drugs,

(v) Protection is also provided to in-digenous producers through the tariff mechanism. Most of the bulk drugs and intermediates are levied custom duty -of 100 per cent ad-valoram.
